About your investment choice

You may invest your accumulation account in any of the investment options offered by Telstra Super. If you have not previously made a choice, your accumulation account will be invested in the default option for your age group (Balanced option for members aged under 60, Conservative option for members aged 60 and over).

As a Telstra Super member you can choose from a broad range of investment options covering all major asset classes, to suit the conservative through to aggressive investor.

It is important to note each option has different objectives, strategies and risks. To help you make your investment choice it is recommended you read Telstra Super's Investment Guide, available at our website or by calling **1300 033 166**. This booklet contains a plain language explanation of basic investment principles and will help ensure you make the best choice for you. Alternatively, call us and ask to speak to a Super Adviser.
